

Experiment – 4

Question:

Create a simple cloud software application for Car Booking Reservation System using any Cloud Service Provider to demonstrate SaaS.

Answer:

AIM: To create a Car Booking Reservation System as a cloud-based SaaS application using Zoho Creator.

PROCEDURE:

Step1: Access Zoho Creator and create a new application.

Step 2: Create a Car Details form to manage vehicle information and availability.

Step 3: Create a Customer Details form to store user information.

Step 4: Create a Booking / Reservation Details form and link cars and customers using lookup fields.

Step 5: Configure workflows to calculate booking charges and update booking status.

Step 6: Publish the application for cloud-based access.

Step 7: The software has been created.

IMPLEMENTATION:

Car Booking Reservation System
