

Experiment – 5

Question:

Create a simple cloud software application for Library book reservation system for SIMATS library using any Cloud Service Provider to demonstrate SaaS.

Answer:

AIM: To design and deploy a Library Book Reservation System for SIMATS Library as a SaaS application using Zoho Creator.

PROCEDURE:

Step1: Log in to Zoho Creator and create a new application from scratch.

Step 2: Create a Book Details form to store book information and availability.

Step 3: Create a Member Details form to manage student and staff records.

Step 4: Create a Book Reservation / Issue Details form with lookup fields to link members and books.

Step 5: Configure workflows to update book availability and due dates.

Step 6: Deploy the application as a cloud-based service for library users.

Step 7: The software has been created.

IMPLEMENTATION:

Library Book Reservation System.
